Can you fit these 14 words from *Monster Makeovers* into the grid? There is only one way to make them all fit, so make sure another word does not fit in the same space before you write it in. All the words should be written top to bottom or left to right.

Tip: Start by filling in the words that have a unique number of letters. For example: "OGRE" is the only word with 4 letters, so there is only one place it can go on the grid.
